

TOWN OF ALBION  
STATE OF EMERGENCY

Both the State of New York and the County of Orleans have declared a State of Emergency related to the COVID-19 crisis. In following, I specifically find as the Albion Town Supervisor that the COVID-19 crisis imperils the public health and safety of both individuals and businesses in the Town of Albion. Taking into consideration various Executive Orders and related emergency guidelines issued by the County of Orleans, the State of New York and the United States of America, and after consultation with federal, state and local governmental departments, I find it to be in the best interests of the Town of Albion for me to hereby issue a State of Emergency in the Town of Albion allowing me the discretion to, among other things, use any and all facilities, equipment, supplies, personnel and various other Town of Albion resources as required to cope with this emergency. Consequently, and pursuant to Executive Law §24, I hereby declare a State of Emergency effective March 23, 2020 at 9:00 p.m. in the Town of Albion, County of Orleans, State of New York. This State of Emergency shall remain in effect for thirty (30) days commencing on the aforesaid date and time unless and until either rescinded or extended by me for additional periods not to exceed thirty days. Any residents in need of special or emergency assistance are advised to contact 911. All residents are advised to monitor the website for the Town of Albion as well as local media reports for updates.

Dated: March 23, 2020
